Please call to request additional  
information about this practice.

The most profitable practice in California! Unique and exceptional, with a very high net income. This is a large, incredibly well-equipped, freestanding leased facility. The practice boasts very high quality, trained and skilled staff. In addition, the practice has outstanding management systems in place. The practice gross was produced mainly by good quality, routine medical and surgical skills. The facility also has a favorable, long-term lease.

This area of Los Angeles County continues to expand due to a strong economic environment. New businesses enter at an average of 1,400 per year. Office vacancies are one of the lowest in the region and sales growth has skyrocketed 82% in the last 10 years, versus 49% for Los Angeles County as a whole.
